Meet Our Guides

Our expert guides and trip leaders are truly the key to our trips' success. Many are locals who live in-country year-round; others have made it their second home—all are passionate, enthusiastic and endlessly knowledgeable. Meet two of the guides that might be on your trip.

Originally from Bandung, West Java, Dani has been a resident of Bali since 2016. He is a professional free diver and member of the Indonesian National Freediving safety team. With his calm manner, he will teach you a trick or two to enhance your confidence in the water. He loves photography and is very passionate about the environment. He is actively involved in a number of non-profit organizations such as Trash Hero.

Dani

Growing up, Nita lived nomadically, traveling from one Indonesian island to another and was able to learn four Indonesian local languages. She is trained in marine ecology and is a certified rescue diver with over 1,000 dives logged. Nita is passionate about marine life and conservation, spending her free time volunteering to help coral restoration. She was awarded the 2020 Inspiring Change Maker award through her non-profit work at Peek Under the Surface, which distributes swim goggles to children living on the coasts of Indonesia and educates them on ocean conservation.

DAY 3 STINGLESS JELLYFISH LAKE

After an early breakfast, start our day with a swim and a snorkel through a giant dome-roofed sea cave filled with massive stalagmites and stalactites. We will then travel to mysterious, stingless jellyfish lake, one of only 20 such lakes in the world where these amazing creatures exist, and swim amongst the many thousands of stingless sea creatures. Using our tenders, we will visit some mysterious skull cairns in sea-cave cemeteries, and prehistoric cave paintings, estimated to be between 3,000 and 5,000 years old.

DAY 4 BIRD WATCHING AND SNORKELING

Today we will set out to catch sight of the Lesser Birds of Paradise in the wild, an unforgettable experience. We will rise early and walk through the forest to hopefully see the birds as they dance around in their 'lekking' trees. In the afternoon, we will explore underwater as we snorkel around one of the best coral reefs in the world with school of fish hanging out in the deep and colorful sea fans sticking poking out of the walls. Watch the sunset as we sail towards Batanta Island.

Those who desire can keep heading upriver where a second, larger cascade awaits. After lunch on the boat, it's an afternoon of snorkeling, paddle boarding and kayaking before sailing overnight to a beautiful group of uninhabited islands north of the equator.

Central Raja Ampat and Mansuar Island stores many magical underwater gems. Today, we explore some of them, starting with a visit to a local village which promotes sustainability through their education center, solar-powered street lights and sustainable fishing practices through local community effort. Its house reef offer an abundance of marine life. We will spend the rest of our morning snorkeling here and, if we're lucky, maybe catch sight of a wobbegong shark. In the afternoon there will be schools of humphead wrasse and a school of giant trevalley swimming next to each other and we may be greeted by the resident hawksbill turtle. Today is capped off with a beach BBQ and party with the crew under the stars.

We will then walk through a colourful local village and meet the people who call this corner of paradise home and see how they live. Back on the boat we will head off for some more snorkeling at the famous wall on the east side of Gam Island before sailing overnight to an island near Sorong.

DAY 10 VISIT DOOM ISLAND AND DISEMBARK IN SORONG

We will wake up anchored in Sorong and have one last hearty breakfast on board of the boat before venturing on our very last adventure to Doom Island by a traditional bicycle rickshaw called a becak. During the First World War, the island served as an administrative center for the Dutch Empire in West Papua, and during the Second World War, Japanese forces occupied and fortified the island, building a network of tunnels and bunkers. The island was attacked by American and Australian aircraft throughout the war. After our last adventure, we bid farewell to the ship and her crew, before transferring ashore to your hotel or the airport.
